

Amazing Visualization Tool Cures All Ills

A new open-source tool designed for visualization of data turns out to have an unexpected, positive side effect: it heals any ailments of viewer. Leading scientists report that the tool, called D3000, can cure even the following symptoms:

- fevers
- *chills*
- general malaise

It achieves this end with a patented, three-step process

1. Load in data.
2. **Generate a visual representation.**
3. Activate magic healing function.
